

SHARE Forum

What's in it for you as patient, carer or a member of a community group?

- A platform to hear directly from patients and carers.
- A chance to collaborate on the things that will make a difference to our service users and staff.
- Support for your service improvement ideas.
- Builds trust and improves relationships with service users.

"This is not about adding work. It's about making our work more effective, informed, and connected."

Judith Douglas, Director of Nursing, AHPs and Quality

What will be discussed at SHARE Forum?

- Ideas about changes to services.
- Policies and procedures.
- Patient information.
- Topics or ideas that you want to understand more about.

Why SHARE exists

SHARE stands for 'Supporting Health through Active Representation and Empowerment.'

The SHARE forum is about listening, learning, and working together—staff, patients and carers—to shape the services we provide and improve the quality of patient care and experience. It's where real stories meet real change.

Benefits of Engagement & Coproduction

- **Improved Service Quality:** By working together, we can develop and implement initiatives that are more responsive to patient needs.
- **Inclusive Decision Making:** Coproduction ensures that service user empowerment is central to our decision-making processes.
- **Stronger Community Partnerships** between CityCare and the people that use our services
- **Represent Diverse Voices:** Support patient engagement and ensure the representation of views of our diverse local communities.

How do I get involved?

You can attend as little or as often as you like or need. There is no formal process - all you need to do is let us know you are attending. We will then let you know the when, where and how. Just come along to the meeting where you will receive a warm welcome!

Join Us in Making a Difference

The SHARE forum meets every 2 months through a mix of online and Face to Face meetings.

The meeting is co-chaired by a patient representative and the Director of Nursing, AHPs and Quality
