

# Keeping well this summer

An information leaflet from your Children's Public  
Health 0-19 Nursing Service, July 2025

## Summer fun and holiday activities

To find out about activities in your area  
over the summer holidays go to Ask Lion

 AskLion

## Sun safety

We all hope that this year will  
bring us some nice weather!

Don't forget though, from March to October in  
the UK, children should:

- Cover up with suitable clothing
- Spend time in the shade,  
particularly from 11am to 3pm
- Wear at least SPF30  
sunscreen (on areas not  
protected by clothing,  
such as the face, ears,  
feet and backs of hands)

The British Association of  
Dermatologists has more

### Sunlight and Vitamin D

Exposure to sunlight is most people's main source of  
Vitamin D. It is recommended that everyone takes  
Vitamin D supplements (10 micrograms) per day during  
the winter months October to March, but some people  
require it throughout the year including those with dark  
skin and those who cover up in the spring/summer.

Vitamin D aids healthy bones and muscles.  
More advice on vitamin D can be found here:

 NHS - Vitamin D

#### The messages can seem confusing!

For lighter skin types, daily sunlight exposure  
for 10-15 minutes between April and September  
provides sufficient year-round vitamin D while  
also minimising the risks of sunburn and skin  
cancer. For darker skin types, 25-40 minutes is  
recommended.

## Thriving Nottingham

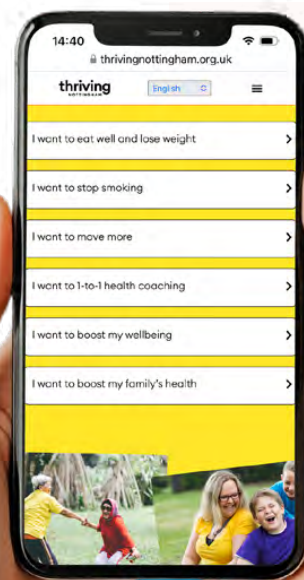

is a new, free health and well-being service that will help you live well and feel great!

Thinking of making changes for the better?

- Losing weight and eating well
- Stopping smoking
- Moving more
- Improving your well-being

Thriving Nottingham can help

[Find out more here](#)

## Be tooth friendly - swap out sugary snacks

A few easy swaps you can make:

- Challenge yourself not to add sugar to hot drinks. If you need the sweetness, go for a sweetener instead.
- Choose water or milk over fizzy drinks.
- Keep fruit juices to mealtimes rather than having throughout the day.
- For savoury snacks, opt for nuts instead of crisps. If anyone is allergic, try carrots and hummus instead.

## Keeping cool – information about 'Slushies'

You may have seen some worrying cases in the news about children being admitted to hospital after drinking too many Slush ice drinks.

[BBC News - 'Children should avoid drinking slushies with glycerol'](#)

Here is what the Foods Standard Agency says: *'Slush ice drinks can contain the ingredient glycerol as a substitute for sugar, at a level required to create the 'slush' effect. At this level, we recommend that children aged seven years and under should not consume these drinks. This is due to their potential to cause side-effects such as headaches and sickness, particularly when consumed in excess.'*

For children and young people, these drinks should be consumed only occasionally.

Water is the best drink and it's free!

# NHS vaccinations and when to have them

## Summer vaccinations reminder

This summer you don't need to worry about children catching illnesses like tetanus, polio, smallpox or diphtheria. Since 1940 when diphtheria vaccine was the first free vaccine to be given to British children on a national scale, these illnesses have become very rare thanks to children having vaccinations.

Other illnesses like measles and whooping cough are becoming more common though.

There were outbreaks across the Midlands in 2024 and across the UK this year too. Most of the measles cases are in unvaccinated children under the age of 10. But vaccinations can also prevent these illnesses.

**Get prepared for September and all the illnesses going back to school brings.**

If your child has not had their MMR vaccination to fight measles, mumps and rubella or the 4 in 1 pre-school booster to prevent diphtheria, polio, tetanus and whooping cough, please see your GP and get protected over the summer holiday.

## Think pharmacy first for children this summer

Your pharmacist can provide advice and treatment if your child is suffering from a sore throat, earache, sinusitis, impetigo and infected insect bites. Just think pharmacy first.

**NHS**

- **Sore throat** (5 and over)
- **Sinusitis** (12 and over)
- **Earache** (17 and under)
- **Impetigo** (1 and over)
- **Infected insect bite** (1 and over)

**Private consultation rooms available**

# Worried about your child's mental health?

Young Minds has some great tips on how to talk to your child about mental health:

[Find out more here](#)

**Do you know about the Young Minds Parent Helpline and Webchat service?**

If you have a child aged 25 and below, you can contact the Young Minds parent's helpline, email or webchat service to discuss your concerns about your child's mental health with one of their trained advisors.

**You can call the Parents Helpline on 0808 802 5544 (Mon-Fri 9:30am - 4:00pm)**

For webchat or email click here:

**Remember** your Children's Public Health 0-19 Nursing Service is there for you during the school holidays as well as term time

**I am worried about my child's development.**

**I'm here to help.  
Whatever is worrying you, let's talk it through.**

We are a confidential text service for parents and caregivers that you can talk to about:

- Healthy lifestyles, including healthy nutrition and exercise
- Day and night time wetting
- Constipation
- Sleep behaviour
- Emotional health
- Healthy relationships and sexual health

Text a Public Health Nurse on

**07480 635002**

We might inform someone if we were concerned about your safety but we would usually speak to you first. Your messages are stored and can be seen by other health care staff who follow the same confidentiality rules. We aim to reply to you within one working day and you should get an immediate message back to confirm we have received your text. Text will only be seen between 9am and 5pm. If you need help before you hear back from us contact your GP, nearest walk in centre or dial 111. Our text number does not receive voice calls or MMS picture messages. We support messaging from UK mobile numbers only (which does not include messages sent from landlines, international mobile numbers and some 'number masking' mobile apps).

To prevent the health professional from sending messages to you, text STOP to our number. Messages are charged at your usual rates. For more information on how we use your information please visit [www.nottinghamcitycare.nhs.uk/stakeholders/governance/you-and-your-information](http://www.nottinghamcitycare.nhs.uk/stakeholders/governance/you-and-your-information)

You can now call our **Children's Health Advice Hub** and speak to a nurse about your child's health and development. **0300 300 0040**  
(Monday to Friday, 8.30am to 5.00pm)

*We can also help you with booking or changing appointments.*

**For urgent healthcare needs please ring 111.**

**Use 111**

If you need urgent medical help.  
**Call, go online or use the NHS App.**

**NHS**
